

Proposed Bylaw Amendment

Multiple Articles and Sections

Inclusion of "No Confidence" in voting procedures.

Placement in Bylaws – Various locations.

Background Information –

The KI Board reviewed the practice of voting "no confidence" in CKI elections during its April 2011 board meeting. Current practice allows for CKI delegates to vote "no confidence" instead of voting for a candidate for international office – even if the candidate is running unopposed. This is true for some CKI districts as well. The Board reviewed information presented by Circle K International President Marfisi as well as the Board Counselor of the organization.

The Kiwanis International Board amends the Circle K International Bylaws and the bylaws of all Circle K districts to remove any reference to "no confidence vote" or the practice of a "vote of negation" in elections at both the International and District levels, effective June 1, 2011.

(ADOPTED)
